

the MUSTANGER

Our Graduates Say Goodbye...

A Look Ahead

Aug 9: registration

Aug 16: tentative date for 7th & 9th gr. orientation in library at 6:30

August 21: First day of school

The tragedy in life doesn't lie in not reaching your goal. The tragedy lies in having no goal to reach.

~ Benjamin Mays

Ashley Public School wouldn't be the place it is if it weren't for the support of parents and this community. We would like to thank you for your hard work and dedication to our students and staff to help make APS the great school it is!

Retiring

"A good teacher is like a candle - it consumes itself to light the way for others."

- Author Unknown

Nancy Aldrich

Carrying an experienced teaching toolbox, lined with strategies and techniques, Ms. Nancy Aldrich arrived at our school August 2006. She began as a Title teacher and Preschool teacher. Then, her job switched to Reading Strategist, Preschool teacher, and Title teacher. In 2011, Ms. Aldrich switched to Kindergarten.

Ms. Aldrich has been a true gift to our school with her energy, enthusiasm, honesty, humor, respect and love to her co-workers and her students. Her dedication to her students extended past the typical work day. Each week, Ms. Aldrich, dutifully prepared her lessons and units into the evenings or weekends insuring each lesson was standards based and the literature current with today's trends.

Ms. Aldrich has held a light of knowledge, with beams of thought provoking questions, on the foundation for many student's paths for 44 years. Her co-workers at the Ashley Public School are grateful for her and will miss her. Thank you for your words of encouragement, sharing your resources, and time with all of us. Most of all, Nancy, thank you for your sincerity and trust. We wish you well on your new life endeavors.

Lisa Eszlinger

Ashley Public School is saying good bye to a 35 year school veteran as she has made her plans to retire. Lisa was born in Minot, ND. She was raised on a dairy and small grain farm in Foxholm, ND and attended school in Berthold. She graduated from Minot State College with majors in Elementary Education and Mental Retardation after which she accepted the Special Ed job in Ashley. Lisa has been employed here for 35 years.

During those years Lisa also earned her Master's degree in Learning Disability from Minot State University. Lisa then received her Emotional Disturbance Credential. While teaching in Ashley, Lisa coached elementary as well as junior high girls' basketball (1983-1992). She was also a cheerleading advisor for a few years.

In 1990 Lisa was joined in marriage to a local rancher, Rod Eszlinger. Together they lived on the ranch and had two children, Wendy Bichler and Reed Eszlinger. Wendy is the English teacher at Ashley High School. Reed continued on with the family tradition of ranching near Ashley. Wendy recently had a baby boy with her husband Michael.

Lisa's future plans are to take care of baby Truett and continue helping her husband on the ranch. She said, "We'll see what else the future brings." No doubt Lisa will be busier than ever! Blessings to you and your family from the staff at AHS. You will be missed!

Meet Ms. Dockter

Hello, my name is Cheyenne Dockter. I grew up on a farm southwest of Medina, where my family primarily raises Gelbvieh cattle. I was very involved in FFA and 4-H in high school. Through 4-H in high school, I also owned hogs and sheep. I enjoy showing livestock, hunting, and fishing. I'm currently finishing my senior year at North Dakota State University, where I majored in Agriculture Education and minored in Extension Education. I'm looking forward to being in the classroom and shop working with students. I'm excited to start the beginning of my teaching career in Ashley!

Meet Ms. Morrison

Hello, my name is Kristie Morrison and I am very excited to be the new Special Education Teacher at Ashley Public Schools starting in August of 2018. I live in Leola, S.D. and I have taught in Eagle Butte, Aberdeen Roncalli and Presentation College prior to coming to Ashley. I got my undergraduate degrees from Augustana University and Moorhead State University and my graduate degree is from South Dakota State University. I enjoy embroidering, gardening and visiting with friends and family, and reading. I look forward to joining the Ashley School Staff in August and meeting members of the community!

Student of the Year

Emily St. Aubin, daughter of Jeremy and Lisa St. Aubin, has been chosen as the 2018 Student of the Year. Emily has been an exemplary student all year. She consistently gets her work done on time and done well. She has shown her leadership skills in all areas of school life and leads by example. She willingly volunteers and accepts the challenge to lead activities. She has managed to balance her school work and extra curricular, succeeding in all of them. Emily is willing to go above and beyond, not settling for average and accepts only her best at all times. Congratulations!

Tiffany Engelhart

Scholarships awarded to the 2018 graduates at the Ashley Public School

Tiffany Engelhart:

ND Community Foundation from ND Farmer's Union Fund - \$500
DRN (Dickey Rural Network) \$500
The Ashley Dollars for Scholars Scholarship - \$400
ND State Scholarship - \$6000

Thea Entzie:

The Ashley Dollars for Scholars
Scholarship - \$300

Adam Houle:

Wolfe Pact Scholarship from Northern
State University - \$5000

Rachel Rueb:

Viola Wishek Scholarship - \$500
Ashley Lions Club - \$500
DRN (Dickey Rural Network) - \$500
The Ashley Dollars for Scholars Scholarship - \$500
The Real Deal Scholarship from the Bank of ND - \$500
Richard Bronson Scholarship from ND Growers Association - \$1000

Katie Schmidt:

Max Wishek Scholarship - \$500
Ashley Lions Club - \$500
Foundation for Rural Service thru DRN - \$2500
CHS Northern Plains - \$1000
Presidential Honor Award - \$10,000 from North Dakota
State University
Glendive BN Federal credit Union - \$500
Frank Bain Freshman Presidential Scholarship - \$2000
The Real Deal Scholarship from the Bank of ND - \$500
The Ashley Dollars for Scholars Scholarship - \$900
Kem Electric - \$500
ND State Scholarship - \$6000
The Veterans of Foreign War Scholarship from the Ashley
Chapter - \$500
ND Dollars for Scholars Military Scholarship - \$1000

Addie Schnabel:

Acciona Tatanka Windfarm Scholarship - \$5000
Floyd & Jeannine Schock Scholarship - \$100
CHS Northern Plains Scholarship - \$1000
University of Jamestown - \$12,000 Regional Science
Fair Scholarship awards (can be renewed each year for
up to 4 years, maximum dollar amount awarded is
\$48,000)
First Community Cedit Union - \$1000 (renewable)
The Ashley Dollars for Scholars - \$1000
The People Helping People Scholarship from the
Hometown Credit Union - \$500
Kermit Karnes Scholarship - \$500

Good Luck

Notice is hereby given that on Tuesday, June 5, 2018 an annual election will be held for the purpose of electing a board member (Rural At Large) to the Ashley School District #9 Board of Education. The election will be held in the Ashley High School lobby and polls will be open from 11:00am to 7:00pm. Absentee ballots may be obtained from the business manager (identification required to pick up ballot).

Please note that voter identification is required for North Dakota elections, including schools. Voters are required to show a valid ID that includes name, address and date of birth.

The acceptable forms of identification are:

- Current North Dakota driver's license or non-driver's identification card
- Tribal government issued identification
- Long-term care certificate (provided by North Dakota facility)

Please be sure to bring your identification on June 5th when you come to vote.

Ashley Student Hits the “Big Time”

While at the International Science Fair, Katie Schmidt was interviewed and featured in the Science News for Kids Magazine. This is an awesome opportunity to be recognized for her success in the field of science as well as for our school! You can find the online article by clicking [here](#) or reading it below. Congratulations Katie!

Which bacteria hang out in belly buttons? Here’s a who’s who

Bethany Brookshire

PITTSBURGH, Penn. — For Kathleen Schmidt, 18, the biggest challenge in her research was finding people willing to swab their belly buttons. Her tiny town of Ashley, N.D., has only 600 residents — and most weren’t too willing to bare their bellies for science. “I got a lot of no’s,” the teen recalls. “Even my sister wouldn’t let me swab hers.” But with a lot of begging, the senior at Ashley Public School got her volunteers. She used swabs of their belly buttons to create a who’s who of the microbes living on — and in — our navels.

Belly buttons — or navels — are leftovers. They mark the spot where the umbilical cord once linked mother and child. As the baby was developing in the womb, the umbilical cord served as the pipeline delivering food and oxygen. It also carried away wastes.

After birth, the umbilical cord gets cut, leaving behind a scar affectionately known as the belly button. Some people have navels that are little hollows, sometimes called “innies.” Others have belly buttons that stick out, called “outies.” All are good spots for bacteria to hang out. “Because it’s warm and moist,” Kathleen notes, “a belly button is the perfect place for bacteria to grow, especially innies.”

The microbes living in navels are part of their hosts’ microbiome — the community of microscopic organisms such as bacteria, viruses and fungi that live on and in all animals and plants. Some types of microbes can cause illness. Many can help protect the body from other, nasty bacteria.

“I love people and I also love bacteria a lot,” Kathleen says, and “I wanted to do a project where I could combine them both.” While she was reading scientific papers, she came across a study by Robert Dunn. He’s an ecologist at North Carolina State University in Raleigh. And in 2012, his team published a paper in the journal PLOS ONE. They, too, had been studying the microbes that lived in belly buttons. “It inspired me, the stuff he found,” Kathleen explains. “I wanted to find some of this stuff!”

One navel produced this rich and colorful bacterial growth.

After asking around her town for three weeks, the teen came up with 40 volunteers. There was an even mix of males and females. Kathleen also selected her navels carefully, dividing them into four age groups, with 10 people in each. The recruits swabbed their belly buttons. Kathleen then rubbed the swabs on agar plates — plastic disks filled with a gel that bacteria like to eat.

The teen kept her plates in an incubator for three days at roughly body temperature: 37.5° Celsius (or 99.5°

Fahrenheit). Then she drove her plates several hours to the University of Mary in Bismarck, N.D. There, with the help of biologist Christine Fleischacker, Kathleen used a microscope to identify and count the microbes growing on her plates.

“I found a lot of bacteria,” she says. “Most of it was *Bacillus* [a genus of bacteria] which is very good. If you want a bacterium in your bellybutton — and you do — it’s *Bacillus*. It...fights off bad bacteria.” Kathleen also found bacterial from other genres, which are groups of closely related species. These included *Staphylococcus* (or staph). This germ can cause disease if it gets into the wrong places. Many of the bacteria she found in her navel samples were similar to bacteria that Dunn and his group had reported before.

Who has which belly button bugs?

Most of the time, there was no difference between males and females, the teen found. The exception? Women ages 14 to 29 harbored fewer bacteria than did men in their age group. And for good reason. “When I asked how many of [the volunteers] cleaned their bellybuttons, all 5 females said they did,” Kathleen recalls. “Only two of the males said they cleaned on the daily.”

The biggest differences were not a matter of whether the hosts were clean or dirty, but instead their age. Adult volunteers had many more types of bacteria in their navels. But while the communities inhabiting adult navels were more diverse, children had belly buttons with many more individual bacteria.

Kathleen (left) goes over her results with her mentor Christine Fleischacker.

And what about the outies and innies? “Outies primarily only have *Bacillus* and staph,” she says. Innies tended to have more diverse mixes of bacteria. One even harbored a fungus.

Kathleen shared her navel results here, this week, at the Intel International Science and Engineering Fair (ISEF). Created by Society for Science & the Public, or SSP, and sponsored by Intel, the competition this year brought together students from 81 countries. The nearly

1,800 competitors showed off the science-fair projects that won them a spot as a finalist at this year’s event. (SSP also publishes *Science News for Students* and this blog).

It may seem like silly science, but in fact it’s important to figure out which bacteria live on our skin. “People should be aware of what’s on their body, how it affects them and the world,” Kathleen says.

“This is amazing,” Dunn says, after learning of the work he inspired in Kathleen. “I love that she thought to focus in on things we missed.”

The teen’s project has only made her love of microbes stronger. “This is what I’m going to do for the rest of my life,” she says. “I love it so much.” She’s already gotten a job for the fall, when she starts college at North Dakota State University in Fargo. She’ll be working in a microbiology lab, of course.

SECOND GRADE

Wow! Time flies when you are having so much fun!! It's hard to believe that the end of the school is here! I have truly enjoyed my 2nd graders! They have gotten through all the lowercase cursive letters in handwriting. They were the only ones that took part in the Winter Reading Contest for Ashley Public School, and they got 4th place in the 2nd grade division and got 7th place for Ashley Public School.

I am extremely proud of all the time my 2nd graders took to read for this contest. WAY TO GO 2nd GRADE!!!!!!!!!! We would like to thank Michelle Kempf for coming into our classroom this year to teach us about saving money. We would also like to thank Karen Bettenhausen for coming in and teaching us On the Move Junior. I ask that my 2nd graders practice their Math facts, handwriting, work in their summer packets, and do lots of reading over the summer. Have a WONDERFUL summer, 2nd graders!!!

WILD about 4th Grade

IT'S BEEN A PIG-RRIFIC YEAR 4TH GRADERS!
You have made my job so rewarding and I just want to say thanks for all the awesome memories!

May you continue to explore, learn, grow, and be the awesome individuals you can be!

Love always,

Mrs. P.

3rd Grade

Wow! Where did this year go?!? Just look at our pictures from the first day of school and the last!

The third graders went on a field trip to the Dakota Prairie Museum in Aberdeen. There are only six students in our class this year, so we took the suburban. It

was fun to play car games on the way to Aberdeen. It's amazing how fast the trip goes when you sing, play 21 questions, guess what's in my suitcase, and the alphabet game! While we were at the museum the third graders dressed up like pioneers, churned butter, helped weave a scarf, washed clothes with a washboard, ground coffee beans, and made a candle. It was a lot of fun and they all learned a little more about life as a pioneer in North Dakota and South Dakota. As a class we also want to say a big thank you to Adam and Matt for being our student aides this year. They both helped the third graders with math, spelling, proofreading, and other activities! I still can't believe how fast this year has gone! The third graders have all grown so much this year! I am so proud of them. I have truly enjoyed being their teacher!

1st day of school

last day of school

The 3rd and 4th graders attended the Annual McIntosh County Spelling Bee in Ashley on May 2 at the Courthouse. Participants included Jaden Lear and Haley Kaseman(3rd grade), and Bethany Gojkovich, Kitana Martel, Cole Nitschke, and Sara Pfeifle(4th grade).

Kitana was runner-up in the Trophy Dash Competition, and Haley took home a first place medal in the Old Fashion Spelling Bee.

Congratulations to all of these kids. They did an awesome job and Mrs. Schmidt and Mrs. Paulsrud are so proud of them!!!

The third graders and the freshman have been working on PowerPoints. The third graders wrote creative stories about farms, dragons, time machines and a lot more. In fact, one story even had a cow with a panda head. Then the freshman helped the third graders edit and proofread their stories. Once the editing and proofreading was done, the fun began! The freshman

helped the third graders turn their stories into PowerPoints, with sounds, movements, clipart, and a lot more. It was a great way to complete our last writing assignment of the year! Thank you to Ms. Sathre and the freshman for helping the third graders.

On Sunday, April 29th the Little Red Truck again pulled into Ashley for our ninth wonderful week of fun and learning for all of the students involved in "Treasure Island". The two directors fit everything they need into the Little Red Truck. They bring the backdrop, costumes, lighting, and all of the props! Over forty Ashley students participated in this year's production. The cast of "Treasure Island" worked hard to prepare a memorable performance on Saturday, May 5th. It is amazing what our students can accomplish during this week! Throughout the week the directors also put on three workshops for the teachers at Ashley School. MCT was a huge success this year! The kids did an awesome job! Way to go "Treasure Island" cast!

I would like to thank everyone who helped make the week such a huge success! I would like to thank Mary Paulsrud for being the fabulous accompanist. Thank you to Ashley School, and SuperValu for providing the meals and Monica and Fern for cooking them. The Sunshine Homemakers and Ashley Staff did a wonderful job of serving supper for the cast members.

MCT truly would not be the success it is without the businesses and organizations who help every year with the cost of MCT. The total cost of MCT is

\$2,900. Every year this cost has been covered by the donations from local businesses and grants that are written. Thank you to Ashley Lions Club, Hometown Credit Union, Dickey Rural Network, and Haugom Window Coverings, Westside Heating and Propane for the donations. Ashley School also received a grant from KEM Electric. It is my hope to continue to have MCT every spring for our students at Ashley Public School. If anyone would like to make a donation please contact the school. Without the help and donations from our local businesses and you we will not be able to continue to see the Little Red Truck come every spring. Any donation will help achieve our goal to continue bringing new activities to Ashley for our students. This is a wonderful opportunity for our school and community. Thank you to everyone involved.

I am also looking for parent volunteers to help with MCT. If anyone is interested please contact me. I feel MCT is a priceless experience for our students, and it is a commitment. Anyone who would be willing to help with the planning process would be greatly appreciated, so we can continue to bring MCT to Ashley.

Jessica Schmidt

FUTURE BUSINESS LEADERS OF AMERICA

Special note to the seniors:

Thank you for all you have done and contributed to the FBLA Chapter. I have had the privilege of traveling with you whether it be throughout the state or the country – thank you for many fun memories. I wish you the best of luck!

Ms. Sathre

As with each spring, FBLA has stayed busy. Many awards were given out during the Academic Awards Night on Monday, May 7th. High School students were recognized for their success at the Local and State levels of FBLA. At the Junior High level, our “Rookie of the Year” went to Christopher Pfeifle!

FBLA cleaned the section of Ulmer Auction ditches – we may have had a smaller crew this year, but they were awesome!

The items ordered from Great American fundraising arrived on Friday, May 4th. The freshmen helped Ms. Sathre organize all the goods – hopefully everyone has received their items that they ordered!

FBLA recognized the teachers of Ashley Public School on Teacher Appreciation Day. We held our 3rd Annual Teacher Appreciation Breakfast in the library. Thank you to the parents who helped make breakfast bake, caramel rolls and muffins!

Abby, Sara, and Katie visited with the sixth grade class about FBLA on Wednesday, May 9th. The girls put together a presentation and the sixth graders had some pretty good questions!

In June, Region Vice President Abby and advisor Ms. Sathre will be attending a training and planning session in Bismarck for the upcoming school year.

National FBLA & International Science Fair News

On Sunday, May 6, 2018 qualifiers cleaned the McIntosh County Bank’s section of ditches. The following Wednesday, members cleaned cornstalks out of the fences at the ball diamond. FBLA and Science Fair are willing to lend a hand when needed and we appreciate all that the community does for us.

National FBLA & International Science Fair Donors. Thank you to the area businesses and community members for your support!

- Thursday, June 21st: Ashley SuperValu Produce Sale – Brat Stand
- Thursday, July 19th: Car Wash from 9:00 am – 4:00 pm in the Hometown Credit Union Parking Lot
- June 26 – July 2nd: National FBLA in Baltimore, MD and Washington, D.C.

Ashley Sophomore Class 5K Color Splash

Come join us for the 2018 Sophomore Class 5K Color Splash! Early registrations will receive an event t-shirt to be given on the day. The Color Splash is open to all ages. Strollers, bikes, rollerblades and skateboards are welcome. Be ready to get some color (if you want) and a workout in support of some awesome students! All proceeds will be going to the Ashley High School Sophomore Class.

Date: Saturday June 16th, 2018

Cost: \$30 per person

Note: Must register by May 25th, 2018 to receive an event T-Shirt (may register up to day of the event)

Registration Time: 9:00 a.m.

Race Start Time: 9:30 a.m.

Starting Location: Centennial Park, Ashley ND

For more information please contact Lucas Moldenhauer at lucas.moldenhauer@k12.nd.us

Please return this form and payment to **High School Office** or contact Mr. Moldenhauer if the school is not open

Make checks payable to **Ashley Public School**, 703 W Main St, Ashley, ND 58413
